Period for Reply

A SHORTENED STATUTORY PERIOD FOR REPLY IS SET TO EXPIRE 3 MONTH(S) FROM THE MAILING DATE OF THIS COMMUNICATION.

- Extensions of time may be available under the provisions of 37 CFR 1.136(a). In no event, however, may a reply be timely filed after SIX (6) MONTHS from the mailing date of this communication.
- If the period for reply specified above is less than thirty (30) days, a reply within the statutory minimum of thirty (30) days will be considered timely.
- If NO period for reply is specified above, the maximum statutory period will apply and will expire SIX (6) MONTHS from the mailing date of this communication.
- Failure to reply within the set or extended period for reply will, by statute, cause the application to become ABANDONED (35 U.S.C. § 133).
- Any reply received by the Office later than three months after the mailing date of this communication, even if timely filed, may reduce any earned patent term adjustment. See 37 CFR 1.704(b).

DETAILED ACTION

Claim Objections

1. Claim 26 is objected to because of the following informalities: In step a, the term, "F)V" should be changed to, "FOV". Appropriate correction is required.

Claim Rejections - 35 USC § 102

2. The following is a quotation of the appropriate paragraphs of 35 U.S.C. 102 that form the basis for the rejections under this section made in this Office action:

A person shall be entitled to a patent unless –

(e) the invention was described in (1) an application for patent, published under section 122(b), by another filed in the United States before the invention by the applicant for patent or (2) a patent granted on an application for patent by another filed in the United States before the invention by the applicant for patent, except that an international application filed under the treaty defined in section 351(a) shall have the effects for purposes of this subsection of an application filed in the United States only if the international application designated the United States and was published under Article 21(2) of such treaty in the English language.

-Claims 1-4, 7-23, and 26-29 are rejected under 35 U.S.C. 102(e) as being anticipated by Brittain et al. (US 2003/0011369 A1).

Brittain et al. teaches a magnetic resonance system method comprising the following:

- Moving subject through MRI so that the extended FOV passes through defined FOV. (Paragraph 12)
- Continuously moving the table, as claim 3 states. (Paragraph 6)
- Moving the table at different velocities when desired, by changing the slab thickness, as claim 4 states. (Paragraph 57)
- Continuously acquire NMR data from subject as it is moved through FOV by performing imaging pulse sequence that acquires NMR data with subject using

readout gradient directed along the direction of subject movement. (Paragraphs 67 and 78)

-Adjusting view acquired using position information, through Fourier transform along the direction of subject movement, as claims 7 teaches, (Paragraph 39) including phase corrections, as claim 8 teaches, (Paragraph 67) and as a function of table motion.

-Storing adjusted view in data matrix. (Paragraphs 28 and 31)

-Reconstructing image using data matrix. (Paragraph 4)

Allowable Subject Matter

3. Claims 5, 6, 24, and 25 are objected to as being dependent upon a rejected base claim, but would be allowable if rewritten in independent form including all of the limitations of the base claim and any intervening claims.

Conclusion

4. Any inquiry concerning this communication or earlier communications from the examiner should be directed to Jeoyuh Lin whose telephone number is (703) 306-5990. The examiner can normally be reached on m-f, 8:30-6:00.
